## WORK EXPERIENCE

### Code With Klossy

Remote

Data Science Instructor Assistant

March 2024 - July 2024

- Collaborated with instructional teams throughout two-week summer coding camps to deliver technical lessons and support in Python, SQL, Google Sheets, and Looker Studio to 90+ students
- Managed a smaller cohort of 20+ scholars in Data Science proficiency and final project delivery through personalized support, remediation lessons, and team-building activities

### Electric Potential

Remote

Front-End Developer

June 2023 - Nov 2023

- Coordinated with design teams to implement interactive web experiences promoting social change using Webflow
- Spearheaded a cross-functional team of 5 to build a Gen Z-focused database on global issue awareness
- Updated website content and integrated responsive adjustments to ensure cross-platform usability

### Daily Bruin

Los Angeles, CA

Software Engineer Intern

Oct 2023 - Present

- Maintained UCLA's online student newspaper site and developed web pages with ReactJS and HTML/CSS
- Collaborated with other interns to monitor site performance, identify key trends, and make data-driven recommendations for site improvement

## ACTIVITIES & PROJECTS

### ATHENA

Los Angeles, CA

Co-Founder & Full-Stack Developer

March 2024

- Awarded "Best Use of AI in Education" at USC's AthenaHacks 2024 for developing a mental health companion chatbot that supports college students identifying as marginalized genders in STEM
- Engineered the chatbot's frontend and backend with Python, Flask, and Node.js for OpenAI API integration

### LA Blueprint

Los Angeles, CA

Software Developer

Oct 2023 - Present

- Created high-impact applications reaching 1000+ users for local nonprofits to effectively support communities
- Partnered with the nonprofit WriteGirl to build a mobile application (ReactJS, HTML/CSS) that supports young women in expressing their creativity and self-expression through creative writing

### (G)-STEM

Valencia, CA

Co-Founder & Web Developer

July 2022 - Jan 2023

- Launched a [website](#) (JavaScript, HTML/CSS) to a community of 2000+ that provides resources to empower young women to join STEM fields with low women representation
- Surveyed 100+ women to create data visualizations and curate resources promoting inclusion of women in STEM
